10 - What did the teaching assistant do well? What areas could the teaching assistant improve upon?

Gwenhwyfar Hartshaw

Response Rate 4/16 (25%)

- She was always checking in on us and asking if we needed help. She did the practice quizzams which I felt were the most helpful to my learning out of the whole course. And the recitations always helped improve my learning and made sense. She does a great job taking a complicated topic and making it simpler and easier to understand. She was great!
- Explaining the worksheets really helped me prepare for the exams. I didn't see anything the TA needed to improve
- She helped really well in making sure we understood recitation problems. Good job from her
- She did very well at going over problems and finding other ways to explain things to kids.
