### Written Comments

- He asked questions that were thought provoking. Knew the material of the class. Well prepared
- He sometimes messed up, but that was fine, I just wish he was more engaging with the students
- He was great at explaining problems and having discussions with the class. Knew what he was talking about.
- I think it would be better if he would work through our worksheets before we complete them so he already knows how to do the problems and aren't seeing them for the first time in class
- Nice
